

# The Endodontic ROOT CAMP

Presented by:

**Dr Martin Gale**

**Dr Vivian Liu**

**Dr Averil Tse**

**Dr Luke Borgula**

## Day 1: Engaging Lectures

Gain valuable insights into the full spectrum of endodontics, guided by four expert endodontists. Topics include:

- ✓ Endodontic diagnosis
- ✓ Access preparation and working length determination
- ✓ Instrumentation and temporisation strategies
- ✓ Root filling concepts
- ✓ Managing endodontic emergencies and complications

## Day 2: Hands-On Training

Put theory into practice with hands-on experience under the mentorship of leading endodontists. You'll have the opportunity to:

- ✓ Explore a range of NiTi instruments and endodontic equipment to find the tools and techniques that suit you best
- ✓ Develop protocols for predictable, high-quality endodontic treatment
- ✓ Enhance your skills using a dental operating microscope, transforming the way you approach endodontics
